

### **Afilias Names Collisions Block List Policy (Ver. 1.0)**

Domain Names in the SLD block list, also known as the “Names Collision list”, for Afilias’ directly contracted TLD’s with ICANN will not be allocated in the Sunrise and Claims period and will be unavailable for registration. In the event that the SLD block list is modified or changed, and the names are deemed eligible for allocation from the SLD block list, Afilias will provide notice on its website announcing the updated process to register these names.
